

# ONEIDA LAKE STATE OF THE LAKE AND WATERSHED REPORT

## TABLE OF CONTENTS

	<u>Chapter – Page</u>
List of Figures.....	<i>xii</i>
List of Maps.....	<i>xiv</i>
List of Tables.....	<i>xv</i>
<b>Chapter I: INTRODUCTION</b>	
Section 1. The State of the Lake and Watershed Report.....	I-1
Section 2. Project History: The Oneida Lake and Watershed Protection Program.....	I-1
Section 3. Current Programs.....	I-2
3.1 Watershed Management Plan.....	I-2
3.2 Watershed Improvement Projects.....	I-3
3.3 Tributary Monitoring.....	I-4
3.3.1 Project Watershed Central New York.....	I-4
3.4 Education and Outreach.....	I-4
Section 4. Program Funding.....	I-5
Section 5. Key Partners.....	I-5
Section 6. Project Purpose.....	I-6
Section 7. Committee Structure.....	I-7
7.1 Oneida Lake Watershed Task Force.....	I-7
7.2 Oneida Lake Watershed Advisory Council.....	I-8
7.3 Oneida Lake Watershed Agricultural Advisory Committee.....	I-9
Section 8. Project Tasks and Deliverables.....	I-9
<b>Chapter II: ENVIRONMENTAL SETTING</b>	
Section 1. Regional Profiles.....	II-1
1.1 Cortland County.....	II-1
1.2 Lewis County.....	II-1
1.3 Madison County.....	II-2
1.4 Oneida County.....	II-2
1.5 Onondaga County.....	II-3
1.6 Oswego County.....	II-4
1.7 Overlapping Areas.....	II-4
1.7.1 Tug Hill Region.....	II-4
1.7.2 Oneida Indian Nation.....	II-5
Section 2. Oneida Lake: Limnology and Ecology.....	II-6
2.1 Introduction.....	II-6
2.2 Oneida Lake’s Physical Characteristics.....	II-7
2.2.1 Bathymetry and Physical Characteristics.....	II-7
2.2.2 Ice Cover.....	II-9
2.2.3 Currents.....	II-9
2.2.4 Thermal Conditions.....	II-9
2.2.5 Light.....	II-12
2.2.6 Water Residence Time.....	II-14
2.2.7 Sediment Characteristics and Sedimentation Rates.....	II-14
2.3 Oneida Lake’s Chemical Characteristics.....	II-17
2.3.1 pH, Alkalinity, Anions/Cations and Dissolved Salts.....	II-17
2.3.2 Phosphorus.....	II-18
2.3.3 Nitrogen.....	II-20
2.3.4 Soluble Reactive Silicon.....	II-20
2.3.5 Dissolved Oxygen.....	II-20
2.3.6 Heavy Metals, Pesticides and Organics.....	II-22

2.4 Oneida Lake’s Biological Characteristics.....	II-26
2.4.1 Phytoplankton.....	II-26
2.4.2 Macrophytes.....	II-29
2.4.3 Zooplankton.....	II-32
2.4.4 Benthos.....	II-34
2.4.5 The Fish Community.....	II-36
2.4.6 Cormorants.....	II-40
2.5 The Role of Exotic Species and Other Human-Related Factors.....	II-42
2.6 Pathogens and Indicator Organisms.....	II-43
2.7 Moving Into the Future.....	II-44
Section 3. Watershed Characteristics.....	II-49
3.1 The Oswego River Basin.....	II-49
3.2 The Oneida Lake Watershed.....	II-51
3.3 Land Forms.....	II-51
3.3.1 Lake Ontario Plain.....	II-51
3.3.2 Appalachian Uplands.....	II-52
3.3.3 Tug Hill Uplands.....	II-52
3.4 Bedrock Geology.....	II-52
3.4.1 Areas of Geologic Significance.....	II-53
3.5 Soils.....	II-54
3.6 Forests.....	II-55
3.7 Climate.....	II-57
3.8 Hydrology.....	II-58
3.8.1 General Overview of Surface Water Resources.....	II-58
3.8.2 General Overview of Groundwater Resources.....	II-59
3.9 Flora and Fauna.....	II-63
3.9.1 Tug Hill Uplands.....	II-65
3.9.2 Lake Ontario Plain.....	II-65
3.9.3 Appalachian Uplands.....	II-66
3.9.4 Rare, Threatened and Endangered Species.....	II-66
3.10 Wetlands.....	II-67
3.10.1 Wetlands in the Oneida Lake Watershed.....	II-67
3.10.2 Wetland Threats.....	II-69
3.10.3 NYS DEC Regulated Wetlands.....	II-69
3.10.4 Wetlands Reserve Program.....	II-70
3.10.5 Great Swamp Conservancy, Inc.....	II-70
Section 4. Tributaries.....	II-71
4.1 Subwatershed Descriptions.....	II-71
4.1.1 Chittenango Creek Subwatershed.....	II-71
4.1.2 Cowaselon Creek Subwatershed.....	II-73
4.1.3 Fish Creek Subwatershed.....	II-75
4.1.4 Limestone/Butternut Creek Subwatershed.....	II-79
4.1.5 Oneida Creek Subwatershed.....	II-80
4.1.6 Oneida Lake North Shore Subwatershed.....	II-83
4.1.7 Wood Creek Subwatershed.....	II-84
4.2 Fisheries.....	II-86
4.2.1 Fisheries of the Oneida Lake Tributary System.....	II-86
4.2.2 Fish Stocking.....	II-88
4.3 Monitoring Programs.....	II-90
4.3.1 Water Quality Monitoring in the Oneida Lake Tributaries.....	II-90
4.3.2 Biological Monitoring.....	II-93
4.3.3 Project Watershed Central New York.....	II-95
4.3.4 Stream Erosion Surveys.....	II-97
4.3.5 USGS Gaging Stations.....	II-98
4.3.6 Rotating Intensive Basin Studies (RIBS).....	II-99
4.4 Priority Waterbodies List.....	II-100

### **Chapter III: ECONOMIC PROFILE**

Section 1. Introduction.....	III-1
Section 2. Demographics, Occupation, Employment and Income.....	III-1
2.1 Population.....	III-1
2.2 Age and Educational Attainment.....	III-5
2.3 Income.....	III-6
2.4 Employment, Business and Retail Sales.....	III-6
2.5 Labor Force by Occupation.....	III-8
2.6 Empire Zones Program.....	III-10
2.7 Oneida Indian Nation.....	III-10
Section 3. Watershed Infrastructure.....	III-10
3.1 Housing.....	III-11
3.2 Water and Sewer Infrastructure.....	III-13
3.3 Transportation.....	III-15
3.4 The New York State Canal System.....	III-15
Section 4. Tourism and Recreational Opportunities.....	III-16
4.1 Regional Attractions and Annual Events.....	III-16
4.2 Parks and Recreational Facilities.....	III-16
4.3 Water-Based Recreation.....	III-18
4.3.1 Fishing.....	III-18
4.3.2 Boating and Fishing Access.....	III-19
Section 5. Economic Impacts From Tourism.....	III-20

### **Chapter IV: HUMAN INFLUENCES**

Section 1. Land Use.....	IV-1
Section 2. Agricultural Land Use.....	IV-4
2.1 Overview of Agriculture in the Oneida Lake Watershed.....	IV-4
2.2 Farm Size and Abundance.....	IV-7
2.3 Soils and Farm Distribution.....	IV-8
2.4 Farm Operation Type.....	IV-9
2.5 Importance of Agriculture in the Oneida Lake Watershed.....	IV-9
2.6 Agricultural Programs and Protection.....	IV-10
2.6.1 Livestock Regulations.....	IV-10
2.6.2 Agricultural Environmental Management (AEM) Program Overview.....	IV-11
2.6.3 AEM and Its role in the Oneida Lake Watershed Agricultural Program.....	IV-13
2.6.4 Farmland Protection Plans.....	IV-14
2.6.5 Agricultural Districts.....	IV-18
2.6.6 Other Agricultural Programs.....	IV-19
2.7 Trends in Agriculture.....	IV-19
Section 3. Water Supply Systems.....	IV-20
3.1 Drinking Water Pollution Sources.....	IV-21
3.2 Water Supply Protection and Regulation.....	IV-22
3.2.1 NYS Source Water Assessment Program (SWAP).....	IV-23
3.3 Major Water Suppliers.....	IV-24
3.4 Onondaga County and the Syracuse Metropolitan Area.....	IV-25
3.5 Madison County.....	IV-25
3.6 Oneida County.....	IV-26
3.7 Lewis County.....	IV-27
3.8 Oswego County.....	IV-28
Section 4. Wastewater Treatment.....	IV-28
4.1 Municipal Wastewater Treatment Facilities in the Oneida Lake Watershed.....	IV-28
4.1.1 Lewis County.....	IV-29
4.1.2 Madison County.....	IV-29
4.1.3 Oneida County.....	IV-29
4.1.4 Onondaga County.....	IV-30

4.1.5 Oswego County.....	IV-30
4.2 Regulation of Municipal Wastewater Disposal.....	IV-30
4.3 On-Site Sewage Disposal Systems.....	IV-31
4.4 Regulation of On-Site Wastewater Disposal.....	IV-32
4.5 Environmental Constraints to On-Site Sewage Disposal.....	IV-33
Section 5. Water Level Management.....	IV-35
5.1 Oneida’s Importance to the Canal.....	IV-35
5.2 Establishing Ideal Levels.....	IV-37
5.3 Operation of Dams and Locks.....	IV-38
5.4 From the Ideal to the Real.....	IV-39
Section 6. Oneida Lake Watershed Flooding.....	IV-40
6.1 Introduction.....	IV-41
6.2 Observed Water Levels.....	IV-41
6.3 Regulatory Framework.....	IV-44
6.3.1 New York State Canal Corporation.....	IV-45
6.3.2 New York State Department of Environmental Conservation.....	IV-45
6.3.3 Federal Emergency Management Agency.....	IV-45
6.3.4 United States Army Corps of Engineers.....	IV-47
6.3.5 Local Communities.....	IV-48
6.4 Flood Definition.....	IV-48
6.5 Ancillary Considerations.....	IV-49
6.6 Conclusions.....	IV-50
Section 7. NYS DEC Regulated Land Use Activities.....	IV-50
7.1 Discharge Permits (SPDES).....	IV-50
7.2 Solid and Hazardous Wastes.....	IV-56
7.2.1 Solid Waste.....	IV-56
7.2.2 Inactive Hazardous Waste.....	IV-58
7.2.3 Underground and Aboveground Chemical and Petroleum Bulk Storage.....	IV-59
7.2.4 Hazardous Spills.....	IV-59
7.3 Natural Resources Land Use.....	IV-60
7.3.1 Mines.....	IV-60
7.3.2 Oil and Gas Wells.....	IV-61

**Chapter V: INSTITUTIONAL AND REGULATORY INFLUENCES**

Section 1. Organizational and Political Structure.....	V-1
1.1 County Government.....	V-1
1.1.1 County Legislatures.....	V-1
1.1.2 County Departments.....	V-2
1.1.3 Advisory Agencies.....	V-3
1.1.4 Intermunicipal Districts.....	V-4
1.2 State Government.....	V-4
1.2.1 NYS Department of Environmental Conservation Regions.....	V-4
1.2.2 NYS Department of Transportation Regions.....	V-5
1.2.3 NYS Office of Parks, Recreation and Historic Preservation Regions.....	V-5
1.2.4 NYS Canal Corporation.....	V-5
1.3 Regional Organizations.....	V-6
1.3.1 NYS Association of Regional Councils.....	V-6
1.3.2 Tug Hill and Sub-Regions.....	V-6
1.4 Lake Associations.....	V-8
1.4.1 Oneida Lake.....	V-8
1.4.2 Cazenovia Lake.....	V-8
1.4.3 Tioughnioga Lake (DeRuyter Reservoir).....	V-8
1.4.4 Tuscarora Lake (Erieville Reservoir).....	V-9
1.4.5 Panther Lake.....	V-9
1.4.6 Kasoag Lake.....	V-9
Section 2. Federal Regulations and Programs.....	V-9

2.1 U.S. Environmental Protection Agency.....	V-9
2.2 Clean Water Act.....	V-10
2.2.1 Stormwater and Erosion Control.....	V-10
2.2.2 Section 404 Wetlands.....	V-11
2.3 National Flood Insurance Program.....	V-12
2.4 Safe Drinking Water Act.....	V-12
2.5 Agricultural Programs.....	V-13
Section 3. State Regulations and Programs.....	V-14
3.1 Environmental Conservation.....	V-14
3.1.1 Priority Waterbodies List.....	V-15
3.1.2 State Environmental Quality Review Act.....	V-15
3.1.3 State Pollutant Discharge Elimination System.....	V-15
3.1.4 Freshwater Wetlands Act.....	V-16
3.1.5 Stream Protection Act.....	V-16
3.2 Agriculture.....	V-16
3.2.1 Agricultural Non-Point Source Abatement and Control Program.....	V-17
3.2.2 NYS Agricultural Districts Law.....	V-17
3.3 Health.....	V-18
3.4 Other.....	V-19
3.4.1 Finger Lakes – Lake Ontario Watershed Protection Alliance.....	V-19
Section 4. Local Regulations.....	V-19
4.1 Comprehensive Plans.....	V-20
4.2 Zoning Regulation.....	V-21
4.3 Subdivision Regulation.....	V-21
4.4 Site Plan Review.....	V-22
4.5 Other Specific Local Regulations.....	V-23
4.5.1 Erosion and Sediment Control.....	V-23
4.5.2 Flood Prevention.....	V-23
4.5.3 Wellhead or Water Supply Protection.....	V-24
4.5.4 Open Space or Conservation Overlay.....	V-25

## **Chapter VI: ISSUES OF CONCERN**

Section 1. Introduction.....	VI-1
Section 2. Issues Defined.....	VI-2
Section 3. Specific Issues of Concern by Region.....	VI-5
3.1 Limestone/Butternut Creek Region.....	VI-5
3.2 North Shore Region.....	VI-7
3.3 Northern Upland Region.....	VI-9
3.4 Eastern Region.....	VI-11
3.5 Southern Upland Region.....	VI-15
3.6 South Shore Region.....	VI-17

## **Chapter VII: DATA GAPS**

Section 1. Economic and Environmental Data Needs.....	VII-1
Section 2. Water Quality and Monitoring Needs.....	VII-2
Section 3. Program Needs.....	VII-2
Section 4. Digital Data Collection, Analysis and Mapping Needs.....	VII-3

## **Chapter VIII: AGENCIES AND ORGANIZATIONS**

## **Chapter IX: CONCLUSIONS: WHERE DO WE GO FROM HERE?**

## **Appendices**

- Appendix A: References
- Appendix B: Glossary of Acronyms
- Appendix C: Glossary of Terms
- Appendix D: Watershed Advisory Council By-Laws
- Appendix E: NY Natural Heritage Report
- Appendix F: Nutrient and Sediment Loss from Oneida Lake South Shore Tributaries
- Appendix G: 1999 Streambank Erosion Surveys
- Appendix H: Rotating Intensive Basin Studies (RIBS)
- Appendix I: Priority Waterbodies List (PWL)
- Appendix J: Oneida Lake and Watershed Municipal Survey, Winter 2002
- Appendix K: Additional Comments
