

Central New York Stormwater Management Training Program

**All New Courses Developed for
Fall 2010/Spring 2011**

Donald W. Lake, Jr. P.E., Principle Instructor

Class Location:

CNY Regional Planning & Development Board

126 N. Salina Street

Syracuse, NY

Course descriptions and registration materials at

www.cnyrpd.org/stormwater

The CNY Regional Planning & Development Board is pleased to present the 2010-2011 Stormwater Management Training Program. These never before presented courses will help you efficiently meet the ever evolving challenges of effective stormwater management. You will learn:

- How to utilize soils information in planning, designing, and constructing stormwater management practices
- How to utilize new rainfall values and distribution data in updated computer models
- How to increase pollutant removal from runoff by utilizing green infrastructure to enhance infiltration and mimic pre-development conditions
- How to select and size appropriate filtering and infiltration practices
- How to design stormwater management practices on re-development projects
- How to establish restoration objectives in impaired watersheds

Who Should Attend

- Consulting & municipal engineers
- Land use planners & developers
- Code enforcement officers
- Contractors
- Landscape architects
- Municipal highway staff

Workshop Information

The fee for each workshop is \$230 and includes class handouts, refreshments and lunch. All workshops are held from 8:30 a.m. - 4:30. p.m. Registration begins at 8:00 a.m.

Most workshops require the use of the NYS Stormwater Design Manual (www.dec.ny.gov/chemical/29072.html) and the NYS Standards and Specifications for Erosion & Sediment Control (www.dec.ny.gov/chemical/29066.html). These documents should be downloaded prior to attending.

Don W. Lake, Jr., P.E., CPESC, CPSWQ has presented over 1,390 lectures, seminars, and training workshops on erosion and sediment control, hydrology, and stormwater management throughout the country. He is the principle author of the “NY Standards and Specifications for Erosion and Sediment Control” and co-author of “Construction Site Erosion and Sediment Controls—Planning, Design and Performance.”

Fall 2010/Spring 2011 Courses

7 PDHs, 7 LUs and .7 CEUs will be awarded for each course completed.

All Syracuse courses held at CNY RPDB, 126 N. Salina Street, Lower Level Conference Room.

Registration questions? Contact Kathleen Bertuch at:
Bertuch@cnyrpdb.org

Course	Date
Classification & Engineering Use of Soils	October 13, 2010
“New” Hydrology	November 8, 2010
Green Infrastructure	January 10, 2011
Design of Filtering and Infiltration SMPs	February 2, 2011
Stormwater Design on Redevelopment Projects	March 2, 2011
Stormwater Retrofit Planning & Design	March 30, 2011

Complete course descriptions, attendance requirements, registration forms and directions are available at
www.CNYRPDB.org/stormwater
